PROFESSIONAL SUMMARY

Computer Science undergraduate at Pan-Atlantic University with hands-on experience in IT, cybersecurity, web development (React, Firebase, TypeScript), and data analysis. Completed two IT internships at Anoh Gas Processing Company, gaining practical exposure to real-world IT operations. Actively building cybersecurity skills through platforms like TryHackMe and INE Security Labs, with the goal of becoming a cybersecurity analyst. Passionate about leveraging technology to solve real-world problems.

EDUCATION

Pan-Atlantic University — Oct. 2023 – Present
Bachelor of Science in Computer Science (In View) — Lagos, Nigeria
Relevant Coursework: Data Structures & Algorithms, Cybersecurity, Web & Mobile App Dev, Operating Systems, Systems Analysis & Design, UI/UX Design, Computer Architecture, Internet Technology

EXPERIENCE

Anoh Gas Processing Company Limited — Jul. 2025 – Sep. 2025
IT Specialist Intern — Lagos, Nigeria

- Gained practical exposure to Microsoft Power Apps, learning how low-code platforms can automate business processes and improve operational efficiency in corporate environments.
- Built an automated financial tracking tool in Excel and a personal budget tracker, reducing manual reconciliation time for a manager.
- Delivered presentations on emerging IT trends and supported staff across departments in optimizing the use of productivity tools.
- Provisioned and configured workstations and peripherals for staff, ensuring consistent system uptime and operational readiness.
- Developed an IT Inventory Management Tool to improve tracking accuracy of IT assets; collaborated across departments to design a workflow process for office supply requisition, approval, and procurement.

Anoh Gas Processing Company Limited — Sep. 2024 – Oct. 2024
Information Technology Intern — Lagos, Nigeria

- Assisted in provisioning and configuring systems for new staff, selecting appropriate hardware specifications to meet role requirements.
- Supported maintenance and troubleshooting of networking equipment including modems, switches, and servers.
- Gained foundational exposure to corporate IT operations, strengthening communication, teamwork, and problem-solving skills.

Tech Innovation Club (TIC) — Oct. 2023 – Present
Protocol Officer (Nov. 2025 – Present); Member (Oct. 2023 – Nov. 2025) — Pan-Atlantic University

- Oversees club operations and coordinates meetings, events, and logistics as Protocol Officer.
- Developed and deployed the TIC Calendar app, actively used by club members to track and manage events.

PROJECTS

TIC Calendar | *JavaScript, Firebase Firestore, HTML, CSS* github.com/MUNACHISOHENRY

- Built and deployed a full-stack calendar app with recurring events, dark mode, iCal export, and mobile-responsive design — live on Vercel and actively used by the club.
- Integrated Firebase Firestore for real-time event persistence; secured admin access via environment-variable-managed credentials.
- Iterated on user feedback to add features including event filtering, legend display, and Firebase error handling.

StockGuard – Shop Expiry Tracker | *TypeScript, React, Node.js*

- Developed a full-stack web application to track product expiry dates and manage shop inventory efficiently.
- Implemented automated background tasks to surface insights into stock levels and alert users ahead of upcoming expirations.

Password Analyzer and Generator | *React, Vite, CSS*

- Built a responsive web application to evaluate password strength and generate cryptographically secure passwords.
- Implemented real-time entropy analysis and feedback to help users create highly secure credentials.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C++
Frontend: React, HTML, CSS, Vite
Backend & Database: Node.js, Firebase Firestore
Tools & Platforms: Git, GitHub, Figma, MS Power Apps, TryHackMe, INE Security Labs
Cybersecurity: Risk Analysis, Cloud & IoT Security, Cybersecurity Frameworks
AI / Deep Learning: Deep Learning Fundamentals, Neural Networks

CERTIFICATIONS

Fundamentals of Deep Learning 2024
NVIDIA – Certified training in deep learning principles and neural network architecture

Software Development Career Accelerator 2024
Internship On Demand (IOD) – Software development lifecycle and project management

Industry Readiness Program 2024
Pan-Atlantic University – Professional communication and workplace readiness

VOLUNTEER EXPERIENCE

GenZ Summit 2.0 2024
Media Team Lead

- Led a media team coordinating real-time content capture and delivery across social channels, reaching 500+ attendees.
- Documented panel discussions and speaker sessions, producing visual recap content shared across social media platforms.

TEDxPAU – Pan-Atlantic University 2024
Media Team Member

- Captured and edited video highlights, contributing to a visual recap reel distributed across social platforms to extend event reach.

Pan-Atlantic University International Students Film Festival (PAUISFF) 2025
Assistant Technical Team Lead

- Coordinated the technical team to achieve seamless execution of tasks, working closely with the team lead on all technical operations.

EXTRACURRICULAR ACTIVITIES

Living Green Club — Member, Pan-Atlantic University Sep. 2024 – Present
Investment Literacy Club — Member, Pan-Atlantic University Sep. 2025 – Present
